As a Member of the Assembly Health Committee, below is a sample of bills I have authored and supported that move us toward more accessibility and a more transparent system.

### Authored Legislation

**AB 417 (2017)** - Continued care for the treatment of Monte Vista Patients during the Thomas Fire.

**AB 1119 (2017)** - Allows medical records to be provided to emergency medical physicians to better address patients' needs.

**SB 449 (2017, Co-authored)** - Requires at least 2 hours of classroom nurses training be dedicated to addressing the needs of Alzheimer's and Dementia patients.

**AB 1860 (2018)** - Sets the ceiling for anticancer medication co-pays to $250.

**AB 1976 (2018)** - Ensures that new mother's have a clean place to express breast milk upon returning to work other than a bathroom.

**AB 388 (2019)** - Would have directed the California Department of Public Health and local jurisdictions to plan and prepare for the impending Alzheimer’s crisis by bringing public awareness to the early signs and symptoms of Alzheimer's.

**AB 1246 (2019)** - Would have improved the healthcare of California consumers with state-regulated coverage and have the same comprehensive benefits and consumer protections, no matter which department regulates their coverage.

### Legislation I Supported

**SB 17 (2017)** - Requires drug manufacturers and health plans to be more transparent and open about prescription drug pricing.

**AB 744 (2019)** - Requires health care contracts to reimburse providers for telehealth services.

**AB 577 (2019)** - Ensures that women receive important pregnancy-related and post-partum health care, including mental health care up to 12 months from a health diagnosis or from the end of pregnancy, whichever occurs later.

**AB 824 (2019)** - Will improve consumer access to affordable drugs by prohibiting brand name and generic drug manufacturers from entering into agreements that delay lower cost generic drugs from being sold on the market.

**AB 1004 (2019)** - Ensures that developmental screenings are routinely occurring for infants and toddlers during Medi-Cal health care visits.

**SB 260 (2019)** - Will streamline the process for Californians to maintain health coverage when they undergo life transitions impacting their coverage from Medi-Cal to Covered.

**Budget (2019)**

Secured $5 million dollars to pilot the Healthy Brain Initiative in 8 counties to improve cognitive health among aging adults.
